- Existing Shoulders 4 Feet or Greater
- Need for New or Improved Paved Shoulders***

Off Street Facilities
- Existing Shared-Use Path
- Programmed Shared-Use Path
- Planned Shared-Use Path
- Incorporated

* Includes Bus/Bike/Turn Lanes
** The need for new or improved on street facilities has been identified based on traffic volumes and speeds, roadway cross sections, and other characteristics. Bikeway improvements may not be feasible or practical due to competing needs for sidewalks, terraces, parking, and other right-of-way constraints.
*** The need for new or improved shoulders has been identified based on traffic volumes and speeds, roadway cross sections, and other characteristics. Shoulder improvements may not be feasible or practical due to competing needs for sidewalks, terraces, parking, and other right-of-way constraints.
